Dear BCT Members:

Enclosures (1) thru (4) are provided for your review and information. These enclosures are provided in an effort to address outstanding concerns and comments on the final Q18 and Q19 groundwater monitoring reports for Parcels B, C, D, and E, Hunters Point Shipyard, San Francisco, CA. Included in these enclosures are responses to comments (RTCs), revised potentiometric surface maps, and appropriate replacement pages and appendices. Also included is a revised CD with the entire revised final groundwater reports for each sampling event. These enclosures were prepared as part of a process intended to improve the overall groundwater monitoring program.

Should you have any concerns with this matter, please contact Ryan Ahlersmeyer at 619-532-0960.

Sincerely,

KEITH FORMAN
BRAC Environmental Coordinator
By direction of the Director
